**About AbilityFirst**

AbilityFirst provides a variety of programs designed to help people with disabilities achieve their full potential throughout their lives. We do this by: creating targeted programming to help an individual successfully transition from childhood to adult life; providing employment preparation, training, and experience; building social connections and independence; and

offering both our participants and their caregivers an opportunity to refresh and recharge through our recreational activities. Our person-centered programs empower individuals to discover what is important to them in their lives, and to develop the skills that are important for them to achieve their goals.
